About Us.

Introduction

Founded in 2019, PT Samudera Maestro Abadi has been a driving force in the bulk shipping industry, specializing in Mother Vessel Bulk Carrier Services. We move the world's essential commodities—iron ore, coal, sand, grain, and more—with precision, efficiency, and scale.

Our expertise extends beyond cargo transport; we provide seamless vessel clearance, port coordination, cargo documentation, and regulatory compliance, ensuring smooth and efficient bulk transfer operations. Whether handling massive coal shipments or ensuring timely grain exports, we optimize every step of the process to minimize port turnaround times and enhance cargo flow efficiency.

Backed by a team of industry professionals, we leverage cutting-edge logistics strategies to maximize bulk shipping performance. Our commitment to operational excellence, safety, and sustainability makes us the preferred partner for shipowners, charterers, and cargo operators worldwide.

At PT Samudera Maestro Abadi, we believe bulk shipping should be smarter, faster, and more sustainable. With a relentless focus on efficiency and innovation, we ensure that every ton of cargo reaches its destination smoothly, safely, and profitably.

Let's move the world, together.

Mission & Vision.

MISSION

- To be the leading Mother Vessel Bulk Carrier Service provider, revolutionizing global bulk cargo logistics with efficiency, innovation, and sustainability, ensuring seamless trade across the world's oceans.

VISION

- **Optimize Bulk Cargo Logistics**
Deliver seamless and efficient handling of iron ore, coal, sand, grain, and other bulk commodities, ensuring smooth port operations and timely shipments.
- **Enhance Operational Excellence**
Minimize port turnaround times, maximize cargo flow efficiency, and maintain the highest standards of safety, compliance, and reliability.
- **Drive Innovation & Sustainability**
Leverage cutting-edge logistics solutions to improve efficiency while committing to eco-friendly and responsible shipping practices.
- **Strengthen Industry Partnerships**
Build long-term collaborations with shipowners, charterers, and cargo operators, providing tailored solutions that align with their business goals.

Our Unit and Services.

With a deep understanding of Mother Vessel Bulk Carrier operations, we provide end-to-end solutions that minimize delays, optimize logistics, and maximize cost efficiency. Whether you're handling high-volume shipments or navigating complex port requirements, we are your trusted maritime partner, delivering excellence at every tide.

Fast. Reliable. Efficient. That's how we move the world.

- **Tug & Barge Services – Agile and cost-effective bulk transport for coal, sand, and more, ensuring smooth and secure delivery. Currently our barges unit are available in sizes from 250 to 330 ft within Borneo, Sulawesi, and Sumatera area.**
- **Mother Vessel Bulk Carrier – High-capacity shipping for iron ore, coal, and grain, with optimized loading and fast turnaround to keep your cargo moving. We can meet your needs with vessels ranging from supramax to panamax.**
- **Floating Loading Facility (FLF) – Seamless offshore transshipment, speeding up cargo transfer from barges to mother vessels while cutting costs and port delays.**
